<p>Salut! Ça va bien, merci.</p>	

I know we can't watch French is Fun with Serge le singe, at the moment, but we will be learning French with Alexa on YouTube instead. We have learned how to describe where we live in detail, so now we are going to learn how to name the rooms in our house. These tasks will take up two lessons so don't worry, you don't need to do them all in one go! Let's start by learning how to say the rooms. Here is a link on YouTube - Rooms in the house in French with Alexa. You only need to listen up to 4 mins 12 secs:

<https://www.youtube.com/watch?v=Q3AGIKdQUvg>

I will be teaching some of you in the next few weeks at school. If you aren't in my group or aren't attending school at the moment, don't worry, I will ask Mr. Wilson to put some more work on the home learning hub for you. Amuse-toi bien!

Keep safe and well!

I hope that you have enjoyed learning about the rooms in the house and had fun completing the activities. Your next challenge is to write a short paragraph about the rooms in your house using my example as a guide. If you feel like being creative, I have included a house template, so why not have a go at making a model house. You could use an old Easter egg box or a margarine tub! Decorate it with any bits and bobs you have around the house, or simply, write a description in French if you prefer. If you would like, please email me a photo of your model house. (Note how les pièces means rooms. It is actually pronounced les PS). The answers to all tasks are at the end for you to check. Au revoir!
